• Kolkata

Summary

What sets me apart as the best candidate for this web development role is my strong technical skills in HTML/CSS, JavaScript, React.js, and Node.js, combined with a genuine passion for learning and innovation. I thrive on staying updated with industry trends and possess a quick ability to adapt to new technologies. I am enthusiastic about contributing to innovative projects and learning from your experienced team. My dedication to continuous improvement, problem-solving abilities, and collaborative nature make me a perfect fit for this role. I am excited about the opportunity to bring my skills and enthusiasm to your team.

Passions

Creative, Innovative, Collaborative

Learning opportunities are definitely appealing to me. I like environments where I can continuously grow and develop new skills. Another factor that attracts me is a supportive team culture—working with people who are collaborative and value each other's contributions. Company values that align with my own are also important, as they create a sense of purpose and motivation in the work I do.

Projects

Weathering_with_you

https://github.com/modhack2003/weathering_with_you

Location

03/2024 - 05/2024

Weathering with you is a user-friendly web application that provides current weather information for locations worldwide. Powered by the openweather.com API, users can quickly check the temperature, weather conditions, humidity, wind speed, and more for any city or region.

- What was a successful outcome of your work? (e.g. Raised \$3,000 for the charity)
