Summary

I am a highly skilled professional with expertise in networking, web development, Python development, and cybersecurity. With certifications in CPD Certified Python Development, CCNA, CEH, and Certified Full-Stack Development, I have a strong foundation in both software and network security. My problem-solving skills, adaptability, and continuous learning mindset allow me to excel in various technical domains. I am eager to contribute my knowledge and experience to dynamic teams, tackling challenges in IT infrastructure, secure web applications, and automation.

Projects

Weathering with You

03/2024 - 05/2024

A web application designed to give real-time weather information to users.

- Developed a user-friendly web application providing current weather information worldwide.
- Integrated openweather.com API to deliver accurate weather data.
- Enabled users to access temperature, weather conditions, humidity, wind speed, and more.

CURD application

04/2024 - 06/2024

Developed a full-stack CRUD (Create, Read, Update, Delete) application using HTML, CSS, JavaScript, PHP, and MySQL. Implemented secure user authentication, dynamic data management, and responsive UI. Optimized database queries for efficient performance and ensured proper validation to enhance user experience.
